

Crunchfish and Digitsecure join forces to enable Digital Cash on EMV certified SoftPOS payment platform

Crunchfish AB ("Crunchfish") adds [Digital Cash Partner #4](#) by entering into a Marketing & Technical Partnership Agreement with Digitsecure Singapore Pte Ltd ("Digitsecure") regarding integration of Crunchfish's Digital Cash solutions into Digitsecure's EMV and PCI certified SoftPOS payment platform.

DigitSecure's SoftPOS payment acceptance platform and their PCI certified Dunn App is a software only mobile POS solution in compliance with global payment schemes. The solution uses NFC (near field communication) to turn Android devices into a POS terminal that can accept EMV contactless payments by just tapping the card to the device. DigitSecure is the first company based in Asia Pacific to receive PCI security certification for deploying this technology. By integrating Crunchfish's Digital Cash solutions merchants can instantly settle offline for improved cash flow, better cash management and lower risk.

"DigitSecure will be a strategically important Digital Cash Partner for Crunchfish with their PCI certified SoftPOS platform for Visa, Mastercard and American Express contactless card payments. By linking our innovative technologies together, we will accelerate our market rollouts", says Joachim Samuelsson, Crunchfish CEO.

"Crunchfish's Digital Cash solutions will strengthen our payment platform by enabling instant settlement for our merchants. There is a strong demand for offline payment in India as the Reserve Bank of India has requested the market to pilot offline payments. We are also looking forward to Crunchfish marketing our combined solution in European markets", says Jay Krishna, Digitsecure CEO.

About DigitSecure – www.digitsecure.com

DigitSecure is the first fintech payments technology provider in Asia-Pacific with PCI certified SoftPoS Payments Acceptance Cloud Platform for accepting touchless payments. It gives acquirers and merchants the ability to seamlessly accept payments on NFC devices and lower capital and operational expenditures. DigitSecure goal is to displace PoS terminals with a mobile application for accepting omnichannel payments safely and securely. The PCI Certified device- and OS-agnostic solution, offered as SoftPoS Platform as a Service, makes touchless payments acceptance simple and affordable for millions of SMEs in India and across the globe.
