

Crunchfish enrolled to VISA Technology Partner program

Crunchfish AB (“Crunchfish”) announces its enrolment into VISA Technology Partner program with its Digital Cash solutions. As a VISA technology partner, Crunchfish will get access to VISA specifications and toolkits enabling potential integration with the VISA digital payment rail.

Crunchfish’s patent pending Digital Cash solutions are built on a two-tier offline vs. online settlement architecture. As a VISA Technology Partner, Crunchfish will get access to VISA specifications and toolkits enabling Digital Cash development, evaluation and potential integration with the VISA digital payment rail.

“To be invited into VISA Technology Partner program is an important milestone for the company and a testimony of Crunchfish’s technology prowess. It suggests that Digital Cash is a promising solution that may become an integral part of digital payments of tomorrow.”, **says Crunchfish’s CEO Joachim Samuelsson.**

About Crunchfish – crunchfish.com

Press release
2021-02-19

Crunchfish is a tech company with a patent-pending solution for digital offline payments that can be integrated both with the payment rail or in a mobile wallet. The offline solution is globally scalable and makes digital payments more robust as the risks of disruptions and downtime are eliminated. We have also developed Blippit, an app terminal that connects to a cash register system for both online and offline payments. Crunchfish also develops gesture control of smart AR glasses for the consumer market. Crunchfish has been listed on Nasdaq First North Growth Market since 2016 with headquarters in Malmö, Sweden and with representation in India.
